

The Art of Answering Questions

In Europe, a Gospel presentation is naturally met with objections and questions – and that is not something to be avoided. The New Testament says: “Let your conversation be always full of grace, seasoned with salt, so that you may know how to answer everyone.” (Col 4:7) As evangelists, we are called to grow in the art of answering questions. In this session we will both look at principles that can guide us in developing answers and tackle some of the most common questions we face.

Case Study:

Discuss different ways to respond to the following objection, raised after an evangelistic presentation: We don't have any hard evidence for God or Christianity. Science have not been able to prove this kind of truth claims. Different cultures give different answers. In this situation, isn't the wise thing to remain agnostic instead of taking a leap of blind faith?
